

❖ **1.** "The Volunteer Board at University Hospital has sponsored a Life Uniform shop in the hospital for over 15 years. It has been a terrific win-win venture for us since day one. The employees love the shop – the convenience, the selection and the prices. We have just moved the store into its third location – we started out small, with less than 500 sq ft, and have continually grown, to the current 1000+ sq. ft. The volunteers love the shop - it provides a steady stream of funding for their many projects in the hospital, and it provides great employee goodwill toward the Board. Life has been a good, supportive partner for many years, and we hope to continue the relationship for many more years to come."

❖ **3.** "Palmetto Health Richland-Volunteer Auxiliary has enjoyed a long and mutually beneficial relationship with Life Uniform. The store sales manager enjoys a good reputation with the employees by meeting their needs whenever and however possible. Currently, the Auxiliary uses the income generated from the store along with our other revenue sources, to help support the hospital in a variety of programs supporting patients, their family members, staff, and facilities."
